### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
2. Authorization for this examiner's amendment was given in a telephone interview with Mr. Ford on 3-30-6.
3. The application has been amended as follows:  
  
Claim 29, line 6, ---each--- had been inserted after the word "that".  
  
Claims 33-43 had been canceled.
4. The following is an examiner's statement of reasons for allowance:  
  
Regarding claims 11-18, the prior art fails to teach or suggest a multiprocessing system for an automobile comprising "a dynamic configuration

system operating independently on multiple different ones of the on-board multiple processors that each automatically incorporates new hardware devices into the multiprocessors that each automatically incorporates new hardware devices into the multiprocessing system for direct communication with one or more of the multiple on-board processors and automatically reconfigures the multiprocessor system in real time to run at least some of the automobile applications normally run on primary on-board processors on different auxiliary on-board processors in the multiprocessing system by replacing the execution of the automobile applications normally run by the auxiliary on-board processor with the execution of the automobile applications normally run by the primary on-board processors," which is considered in combination with other limitations, as specified in the independent claim 11.

Regarding claims 29-32, the prior art fails to teach or suggest a multiprocessor system used in a car, comprising "a dynamic configuration system run independently on multiple different ones of the multiple on-board processors that each includes a device manager for automatically detecting and adding new hardware devices to the on-board multiprocessor system, a

configuration manager that automatically reconfigures the multiprocessor system to run the real-time car applications on different ones of the multiple on-board processors, and a data manager that identifies data generated by the new devices and identifies other device in the multiprocessor system that can input or output the identified data," which is considered in combination with other limitations, as specified in the independent claim 29.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
